

Infolinx Announces Scheduled DoD5015.2 Version 3 Testing

In coordination with the Joint Interoperability Test Command (JITC), Infolinx announces the scheduled DoD5015.02 version 3 testing of its [Infolinx WEB](#) software. Integrated with IBM's Records Manager 8.5, the combined solution is expected to be commercially available Q2 2010.

(Vocus) October 29, 2009 -- Infolinx System Solutions, a leading provider of enterprise physical records management software, announced the scheduled [DoD5015.02](#), version 3 testing of its physical records management application, Infolinx WEB.

Tentatively scheduled for February 22 - March 5, 2010, the integrated solution providing DoD5015 compliance, also includes high-value physical records management capabilities such as space management, integrated Gen II [RFID](#), workflow notifications, advanced security management, and robust reporting capability.

"We are pleased to once again partner with IBM to provide an industry-leading solution managing the full lifecycle of physical records" said Amy Hamilton, CRM and CEO of Infolinx System Solutions. "In addition to offering the DoD5015 regulatory compliance, we believe our extended functionality surrounding the management of physical records is the best the industry has to offer".

Organizations across North America and Europe increasingly require regulatory compliant physical records management solutions. The latest IBM-Infolinx combined solution provides not just regulatory compliance, but an intuitive, thin client, full-featured physical records management application.
