

Major Texas Municipality Chooses Infolinx for City-Wide Management of Physical Records

Infolinx Improves Client's Management of their Records for over 30 Different City Agencies

Kensington, MD (Vocus) October 14, 2010 -- Today, Infolinx announced that the Office of the City Clerk for a major Texas municipality selected Infolinx WEB software to facilitate the enterprise tracking of all its physical records, including files, microfilm, and boxes while continuing to promote City-wide compliance with records retention laws.

Infolinx WEB plays a key role in fostering effective and responsible government through helping our client's management of the lifecycle of their physical records for over 30 different city agencies. The Infolinx WEB solution is a feature-rich, enterprise class, native physical records management application, requiring only a contemporary web browser such as Microsoft Internet Explorer. Appealing to records management and IT professionals, written in Microsoft's latest .Net environment, Infolinx WEB provides a secure and scaleable solution.

"This is a cutting edge solution for our client to manage their critical documents," said Tim Butler, Infolinx Managing Director. "We're pleased that they have given us the opportunity to help manage their entire lifecycle from creation through final disposition of their physical records."

The Infolinx staff of Project and Certified Records Managers (CRM) represents extensive years of experience in the records management industry and was available to assist this municipality with all of their records management needs.

About Infolinx
